SYNTHETIC GRASS BOWLING GREENS

www.greenplanetgrass.com.au

Green Planet Grass provide a **full turn-key solution** including:

- Consultation, design, plans and approval.
- Construction of base including drainage and 3 stages of laser levelling.
- Banks, walls and surrounds.
- Choice of synthetic grass surfaces including World Bowls approved surfaces.
- Grass to synthetic conversions.
- Resurfacing with new synthetic grass.

Green Planet Grass has joined with KCL Sports to provide over 20 years' experience in the synthetic turf industry and 100 bowling green constructions and conversions nationally. Jon Hastings from KCL Sports, is the leading innovator in Australia of synthetic grass for bowling greens. He personally designed the Dry Max Pro bowls surface which is approved by World Bowls and widely used as the bowling green surface of choice throughout Australia.

Established in 2008, we have a wealth of experience providing high-quality synthetic lawn and grass systems for Residential, Commercial & Sporting applications.
