RESIDENTIAL - SPORTING - COMMERCIAL

## **MAINTENANCE SERVICE FOR SYNTHETIC BOWLING GREENS**

Green Planet Grass now offers a comprehensive Synthetic Grass Bowling Green Maintenance Service. This service includes:

- Twice yearly grooming using a specialized metal grooming reel
- Assessing of sand levels
- Algae & moss treatment

Grooming is undertaken using trained and experienced synthetic bowling green installers and our equipment has been specifically designed for this purpose.

We recommend that this work is carried out twice a year to keep your synthetic grass bowling greens in peak condition for optimal performance and to extend the life of your green.

Contact Green Planet Grass now on 9209 2669 to organize your maintenance schedule or for further information.
