CONVERSION OF UNUSED BOWLING GREEN TO FUTSAL/5-A-SIDE PITCHES

Does your club have an unused bowling green? If so, you may be interested in converting it to Futsal/5 a-side pitches.

Conversion of unused bowling greens to Futsal/5 a-side pitches has become a popular way of revitalizing club social memberships as well as providing a community friendly facility. It's a rapidly growing sport in Australia which appeals to all ages, boys & girls, men & women.

Futsal is a FIFA approved 5 players a-side form of football (soccer). Compared to regular soccer, it requires fewer players and a smaller pitch. It also has a reduced game duration. Two pitches can replace a standard bowling green and a synthetic grass futsal/5 a-side pitch provides an all-weather training facility.

If your club is interested, for more information please contact Tony at Green Planet Grass on 9209 2669 (office) or 0411 109 036 (mobile).
